Storm Data and Unusual Weather Phenomena - March 2008

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
	03/18/08 14:00 CST		0	Thunderstorm Wind (EG 50 kt)
	03/18/08 14:00 CST		0	Source: Law Enforcement

Reported on CR 4508.

Storms developed along a dry line which move into north Texas during the afternoon hours on the 18th. This activity reacted to rich Gulf moisture and ample instability, developing further as it encountered a warm front to the east.
